

**MODEL FPJ-075-E PROP/JET**  
**Repair Parts - Lower Drive Assembly**

Item Number	Part Number	Description		
1	250229	Gear Case Housing		
2	250230	End Cap – Rear		
3	250231	End Cap – Front		
4	250232	“O”-Ring Drive Housing Tube		
5	250233	Bearing, ½” I.D.		
6	250234	“O”-Ring; End Cap Seal		
7	207036	Driven Spiral Bevel Gear		
8	250236	Propeller Shaft		
9	58130-ZV0-841ZB	Propeller		
10	250237	Shaft Seal, ½” I.D.		
11	250238	Guard, Front		
12	250239	Guard, Rear		
13	250173	Zinc, Anode		
14	250157	Flatwasher ¼” S/S		
15	250149	¼” Split Lockwasher S/S		
16	250154	¼”-20 Hex Nyloc S/S		
17	250240	¼”-20 x 1½” HHCS S/S		
18	250142	¼”-20 x ¾” HHCS S/S		
19	90757-ZV0-000	Cotter Pin		
*20	250241	E-Ring, Propeller Shaft		
21	250217	<sup>3</sup> / <sub>16</sub> ” Key x 1” Long		
22	250218	¼”-20 x ¼” Cup Point Set Screw		
23	250242	10-24 x <sup>1</sup> / <sub>8</sub> ” Cup Point Set Screw		
24	58131-ZV0-000	Shear Pin		
		End Cap–Rear, can be purchased as a sub-assembly with one (1) Part #250233 Bearing installed. Refer to Part #250301.		
		End Cap-Front, can be purchased as a sub-assembly with one (1) Part #250233 Bearing installed and two (2) Part #250237 Shaft Seals installed. Refer to Part #250302.		

\*Note: Assembly requires only (1) "E"-Ring. Depending on the type of driven gear being used will determine in which groove the "E"Ring will be installed. For Model FPJ-4P the "E"-Ring would be positioned in the groove closest to the end of the propeller shaft. For Model FPJ-25-P and Model FPJ-075-E the "E"-Ring would be positioned in the forward groove.

Effective 3-15-2002. Prices subject to change without notice.
